

# Offer for a trade mission to SWEDEN

18. – 22. November 2019

---

## THE TRADE MISSION

### SWITZERLAND AND SWEDEN – GLOBAL INNOVATION LEADERS JOIN FORCES

- Six years ago, the Swedish government, in close collaboration with the Swedish industry, launched **Sweden's international innovation accelerator**.
- Switzerland was chosen as a strategic innovation and technology collaborator.
- So far, Swiss and Swedish industry have **created 35 projects to a value of €64 million in six years**.
  - Among these is **Europe's largest additive manufacturing project MANUELA**, led by Sweden's Chalmers and CSEM of Switzerland, with ABB and RUAG among the other industrial participants.
- One of the areas of technology prioritized by Swiss and Swedish industry for joint innovation projects is lightweight materials and additive manufacturing.
  - Co-funding is available for joint market-oriented innovation projects via Swedish governmental innovation agency Vinnova and its Swiss counterpart Innosuisse

### Deepened collaboration in 2019

In 2019, CC Schweiz and its Swedish counterpart, the strategic innovation program for lightweight technologies LIGHTER are deepening their collaboration. As a first step, CC Schweiz and its members will visit LIGHTER's 3<sup>rd</sup> international conference on November 20–21 as well as some of the national big industry players in Sweden.

#### Aims of the trade mission

- bring the Swiss and the Swedish lightweight industry and academia together
- boost international projects among both countries
- give a much more detailed insight into the SWE/CH offset possibilities
- networking at the highest executive level
