

MEET GLOBAL INNOVATION LEADERS

Trade Mission Sweden

Monday, 18. – Friday, 22. November 2019

Aims of the trade mission

- bring the Swiss and the Swedish lightweight industry and academia together
- boost international projects among both countries
- give a much more detailed insight into the SWE/CH offset possibilities
- networking at the highest executive level

Supported by

Schweizerische Eidgenossenschaft
Confédération suisse
Confederazione Svizzera
Confederaziun svizra

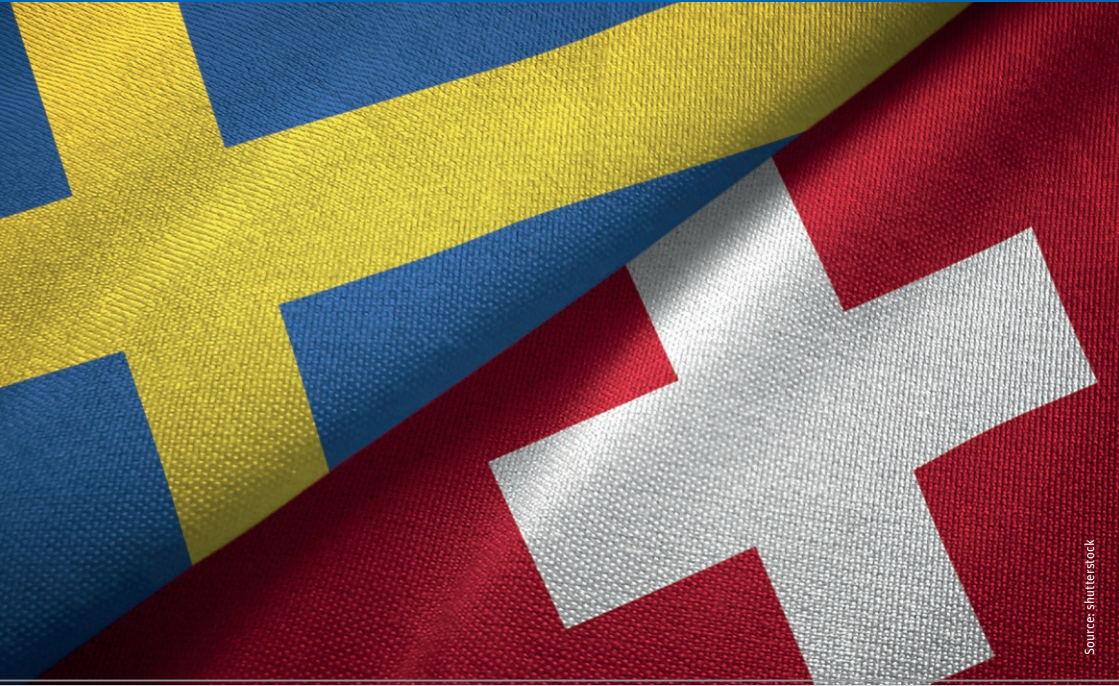

Swiss Confederation

Innosuisse – Swiss Innovation Agency

SWITZERLAND AND SWEDEN – GLOBAL INNOVATION LEADERS JOIN FORCES

Source: shutterstock

- Six years ago, the Swedish government, in close collaboration with the Swedish industry, launched Sweden's international innovation accelerator.
- Switzerland was chosen as a strategic innovation and technology collaborator.
- So far, Swiss and Swedish industry have created **35 projects to a value of €64 million in six years.**
 - Among these is **Europe's largest additive manufacturing project MANUELA**, led by Sweden's Chalmers and CSEM of Switzerland, with ABB and RUAG among the other industrial participants.
- One of the areas of technology prioritized by Swiss and Swedish industry for joint innovation projects is lightweight materials and additive manufacturing.
 - Co-funding is available for joint market-oriented innovation projects via Swedish governmental innovation agency Vinnova and its Swiss counterpart Innosuisse.

In 2019, CC Schweiz and the Swedish strategic innovation program for lightweight technologies LIGHTER are deepening their collaboration.

PROVISIONAL SCHEDULE

MONDAY, 18 NOVEMBER 2019

Evening	Arrival at Arlanda Airport at 18:55 Transfer to hotel and dinner	1 hr by car/bus
Accommodation	Hotel close to Scania facilities

Outgoing	Zurich – Stockholm Departure 16:30 – Arrival 18:55
Return	Gothenburg – Zurich Departure 14:40 – Arrival: 16:45

LIGHTer

LIGHTer consists of two main parts: The Lightweight Strategic Innovation Programme (SIP) and the Member Programme. Together they form a coherent element in the Swedish lightweight landscape, and the activities and projects organised by LIGHTer contribute to and develop strategic innovation in the lightweight sector. www.lighterarena.se

EVENT ORGANISER

The association Carbon Composites Schweiz (CC Schweiz) is your contact within Switzerland for all matters and requirements relating to high-performance fibre composites.
